Internal Auditor Workshops

This three-day workshop provides the knowledge necessary to audit quality management systems as required by any of the major Quality Systems Standards or Requirements, including ISO 9001:2008, ISO/TS 16949, AS 9100, and ISO 17025. The auditing requirements of each of these documents are addressed in detail. This workshop is based on ISO 19011 Guidelines for Auditing Quality Systems. Successful completion of a comprehensive final examination at the end of this workshop will qualify you to perform the duties of an Internal Auditor of Quality Management Systems.

October 28 - 30 **8:00 am to 4:30 pm** **\$1,130***

Getting the Most Out of FMEA

Participants will learn the logic behind FMEA (Failure Mode and Effect Analysis). This one-day workshop provides participants with an understanding of FMEA and how to get the most out of them.

November 16 & 17 **8:00 am to 4:30 pm** **\$700***

Root Cause Analysis

Participants will learn how to identify the true root cause(s) of problems and eliminate them permanently. Topics include: a step-by-step methodology that will make analytical skills more effective and efficient, a schematic method to identify the true root causes, and implementing permanent corrective actions.

November 19 & 20 **8:00 am to 4:30 pm** **\$700***
